

Pimpelmees Distraction panels

Beautifully designed with intricate animal themes

Pimpelmees distraction panels emit a soft glow, illuminating the detailed artistry of each panel. The attention to detail captivates and offers a pleasant diversion from dental procedures. It's an understatement to suggest these panels are solely for children; we invite adults to be equally enchanted by the Pimpelmees designs.

Pimpelmees panels can be sold as individual panels or as sets of 4 panels, contact us for more info.

At a glance

Pimpelmees design LED distraction panels emit a soft glow illuminating the art work without blinding or being harsh on the eyes for the viewer. There are six different designs to choose from.

- Standard 600mm x 600mm, for installation in suspended ceiling.
- High quality - high resolution print.
- 5 years warranty.
- Includes flicker free driver.
- Intricate design draws the viewers attention.
- Plug and play installation, just plug in.

Installation

DentLed collaborates with accredited technicians to install and maintain full spectrum lighting solutions in your dental practice. For further details, please get in touch with us. If you have a preferred installer, installation can be arranged through them as well.
